## MONONGAHELA VALLEY INTERESTED IN TESTS

**Big Demonstration at  
Pittsburg Attracts  
Attention**

**PRESIDENT TAFT COMING**

**National Executive and Gov.  
J. K. Tener Among the  
Honor Guests**

Mining hosts are assembled at Pittsburg today to attend the first of a three days' celebration of two notable events in the history of Western Pennsylvania and the world. One will be a demonstration of the progress being made to safeguard life in mining and the other the first part of the observance of the hundredth anniversary of steamboat navigation on the Ohio river. Gov. John K. Tener and President William H. Taft will take an active part in the exercises. President Taft will be in Pittsburg on Tuesday.

To the Monongahela valley the mine demonstration holds chief interest and miners from all along this waterway will witness the experiment conducted under the personal supervision of Dr. Joseph A. Holmes, Director of the National Bureau of Mines. The demonstration began this morning at 8:30 o'clock. Tests were made of explosives and explosions of fuel, etc., at the arsenal grounds. An address of welcome was made to the mining men by Walter L. Fisher, Secretary of the Interior. Congressman Martin B. Fox of Illinois, responding. Among other tests, a demonstration of a coal dust explosion, a gas and dust explosion with black powder and a gas and air explosion were made. This afternoon there was an experimental explosion at Bruceton. Tonight a reception will be tendered to Secretary of the Interior Walter L. Fisher and Dr. J. A. Holmes. Tomorrow morning with President Taft as an honor guest demonstrations will be given of explosions, rescues and first-aid-to-the-injured. Trophies will be presented by President Taft, Gov. Tener, Secretary of the Interior, Walter L. Fisher and Miss Mabel Boardman of the American National Red Cross Association will make addresses.

The program for the centennial celebration will open this afternoon with a meeting in the lecture hall of Carnegie Library when addresses will be made. Tonight there will be a reception for women guests at Hotel Schenley and among the honor guests will be Mrs. Alice Roosevelt Longworth. Tomorrow the replica of the steamboat New Orleans, the first steamboat to operate from Pittsburg to New Orleans, will be christened by Mrs. Longworth. A steamboat parade will be held following. Tomorrow night a Chamber of Commerce banquet will be held at the Hotel Schenley complimentary to President Taft. Wednesday various meetings will be held and on Thursday the New Orleans will leave on its voyage to the gulf.

**Big Masquerade Ball.**

A big masquerade ball will be held at Turner Hall, Corner of Second Street and Donner avenue, Monessen, hallowe'en night, October 31. Eight prizes will be given. Dancing from 10 to 2. Costumes can be had all day Tuesday at the hall.

## Want Line Laid Right

**Donora Citizens Insist That  
Trolley Company Pave  
Between Tracks**

Donora people are not going to allow the Pittsburg Railways company to build its tracks along the new road to Monongahela unless they construct a smooth paving surface between the tracks, if their earnest protestations can avail. The trolley car company wants, it is stated, to lay a track from Monongahela to Donora along the new road, but objects to paving between the tracks, giving as a reason that it wants to prevent vehicle traffic from passing over its tracks. It is probable that a committee of citizens will visit Washington to take up the matter with the county commissioners to invoke their aid.

## DID YOUNG MEN GET JUSTICE? ASKS GELDER

**Matter of Arrest and Sen-  
tence of Local Disturb-  
ers is Taken Up**

To the Citizens of Charleroi:  
I feel it the duty of myself as a citizen of Charleroi and one that wants to see that justice is done to all to make a statement to you after the most disgraceful and brutal part that was ever seen on our streets last Wednesday evening, and by the so-called high-handed police who was the cause of all the excitement by the way they were trying to do their duty. The shooting done by our chief being uncalled for and the danger to lives by such an act. The way they went about in making the arrest of Kenneth Matson was a disgrace to our town. Here are three young men thrown into jail kept there for 28 hours then taken before Justice of the Peace E. Rice, handcuffed as though they were the most dangerous criminals in the state and sent to jail for 30 days without given one chance to put up a defense. Was justice given to these young men?

And such treatment and testimony given by our police who I think would say anything to send you to jail is enough to make criminals instead of trying to make men of them. Now, Mr. Voter, are these the kind of men you want? Will you get to thinking and open your eyes ready for November 7th? One that has had injustice done to and is ready at all times to do anything for the betterment of our town.

Respectfully,  
James Gelder.

## THESPIANS UNABLE TO SECURE HOTEL ROOM AT MONESSEN

**Town With 15 Licensed Houses Without Accommodations for Members of Theatrical Company**

With 15 licensed hotels at Monessen, it is said that transients have a hard time in that town getting a night's lodging. Last week a big show struck the town, which exhibited at the opera house there, and it is stated that about 50 members of the troupe, after making a tour of the 15 hotels in vain for lodgings, had to skimpish about and seek private rooms. The larger hotels were filled up with their ordinary guests and the more prominent members of the theatrical company, and the smaller houses it is said, either had not the facilities for the accommodation of guests or would not take them in. It is said that this will be made the basis of a hard fight in Monessen to knock out some of the licenses at the next term of court. As these licenses are granted to the hotels, presumably to equip them to take care of the traveling public, which they fail to do, it is stated that the Monessen people are beginning to realize that many of them are maintained exclusively for the saloon privileges and that the hotel feature is a farce. Charleroi with only a thousand less population has but seven licensed hotels which afford ample facilities to take care of the traveling public will be cited as an example, it is said, by the opponents of license at Monessen when they make their fight at the next license court.

## IS RECOVERING FROM POISONING

**Monongahela Man's Life is  
Saved After He Takes  
Laudanum**

Well on the way to recovery, "Jimmie" Ray, who it is claimed took poison here Saturday afternoon, was removed to his home town by friends Sunday morning. Ray was found by the local police Saturday afternoon shortly after he had taken a bottle of laudanum. It required the services of several men Saturday afternoon and evening to keep him awake. It was the intention to send him to the hospital.

## ASKS DAMAGES FOR LOSS OF HER HUSBAND

**Mrs. Morrison Presents Claim  
of \$30,500 for a Former  
Woven Wire Worker**

Charging the Page Woven Wire Fence company with negligence, Mrs. Margaret Morrison of Monessen has filed suit in the Westmoreland county courts to recover damages of \$30,500 for the loss of her husband. He was killed according to her claim on December 21 or thereabouts, 1910.

In her statement Mrs. Morrison says that her husband was employed as a steel smelter in an open hearth department of the plant. Part of his duties were to operate four levers, controlling a flow of gas in the furnaces. To each of these levers was attached a cable supporting a weight of 800 pounds. By the breaking of a cable, she avers her husband was struck by the falling lever and hurled against a steel railing with such force that his skull was fractured, death resulting therefrom. She states she was left a widow with two children, aged five and two years.

## MASQUERADE PARTY

The Young People's Guild of the Episcopal Church, will hold their Annual Masquerade Party, on Wednesday evening next, for the benefit of the work of the Guild, which consists of the sending of flowers to the sick and to funerals, and other charitable Christian acts. The admission including refreshments will be 15 cents. Everybody welcome. 80-t2

## FRIDAY NIGHT

**DANCING SCHOOL**  
The Nasskoff Bros of Pittsburg will furnish the music Friday night at Oatman's Dancing School. Come and hear them. They are good. Class 7:30. Social dance 8:45 to 12. 79-t6

## ATTENDS SESSION OF OSTEOPATHS

**Local Member of Society Pre-  
sides at Meeting Held  
in Pittsburg**

Dr. C. C. Wright of Charleroi the president of the Western Pennsylvania Osteopathic society presided at a meeting held by the association at Pittsburg on Saturday night at the Fort Pitt hotel. Talks were made by Dr. Frank Hunter Smith of Indiana, Dr. Clara Morrow of Butler and Dr. C. W. Bumpus of East Liverpool. Dr. Bumpus spoke on "pneumonia" and in the course of his talk said that 85 or 90 per cent of cases of pneumonia treated by osteopathic physicians are either aborted or cured.

## FUNERAL OF GIRL VICTIM OF FIRE IS HELD TODAY

**Body of Little Elizabeth Mc-  
Guire Interred in the  
Local Cemetery**

The funeral of Elizabeth McGuire, the 5-year-old daughter of Mr. and Mrs. Michael McGuire, of 105 Luella avenue, who died Saturday morning at 9 o'clock from burns received the night previous was held this morning. Requiem high mass was celebrated at St. Jerome's Catholic church. Interment was in Calvary cemetery. Besides the parents, there are several brothers and sisters who survive.

## EVANGELIST GETS 69 CONVERSIONS

At a series of evangelistic meetings just closed at the First Christian church, Monessen, there were 69 conversions. Rev. E. Joyce, of Ohio, was the evangelist who assisted the pastor Rev. T. H. Hughes.

## Recovering From Illness.

John Higgins, whose name will appear on the local municipal ballot as an independent candidate for constable after a sickness lasting for some time, is able to sit up and will likely be out in a week. Mr. Higgins was importuned to announce as an independent candidate by his numerous friends here and complied with their wishes.

## Gave Lecture on Socialism

Louis Goaziou, editor of L'Union des Travailleurs, gave a lecture in Co-operative Hall at 620 Fallowfield avenue Sunday evening. His topic was "Why Vote the Socialist Ticket?" It was listened to by an appreciative audience.

## HALLOWE'EN OBSERVANCE ALONG THE USUAL LINES

**Enforcing  
Food Laws**

**California Man Fined for  
Selling Soft Drink Con-  
taining Saccharine**

John Jenkins, special agent of the Dairy and Food division, is doing a lot towards having the pure food laws enforced by sellers along this valley and over the district of which he has charge. A day or so ago he had before Justice of the Peace Joseph Wheeler of Charleroi Nathan Avener, of California, charged with violation of the pure food laws. It was claimed that Avener sold a sort of non-alcoholic beverage called orange cider in which he used saccharine in place of sugar. He was fined \$25 and costs.

## CITIZEN THINKS INVESTIGATIONS SHOULD BE MADE

**Suggests that Council Make  
Movement Towards Hav-  
ing "Dens" Cleaned Out**

To the Editor of the Charleroi Mail:  
Sir—While the Mail is to be commended for various articles appearing in your paper lately concerning the disturbances on the street, enough stress and punishment cannot be placed on those directly to blame. I am well aware any town has "dens" of the "under world," and their vices, etc., but a rigid investigation is needed by council to know where the occupants of such places are, and how a majority of the boys and young men can wantonly stay out all night if there is not some place to harbor them.

Such are the cases where there are so many with no visible means of support. There is no excuse why every occupant should not be known to the police in a town of this size.

I have tried on many occasions to find where those places are but through fear or some other cause they are bound to immune secrecy, which makes it impossible to locate these "dens."

Now when this crusade is started on the defenseless I trust it will be continued until it reaches the proper source of destruction.

Let the council investigate, and they can easily learn who resides in every house in the town through the action of their municipal government.

Yours truly,  
Citizen.  
Charleroi, October 30, 1910.

**Maskers to be Out in  
Full Force Tomorrow  
Night**

**ROWDYISM IS TABOOED**

**Police Will be Watchful to  
Prevent Property From  
Being Destroyed**

There will be no organized Hallowe'en celebration here this year as there was during the two previous years, but indications are that the young people will have a good time nevertheless. Celebrators will be watched by the police to see that in their exuberance of spirits they do not exceed the limit of tolerance. While there has been no arrangements made for a parade, it is not unlikely that a parade will be held.

Masquerade costumes will be in great demand. This one night of the year set apart from the rest for a time of enjoyment affords rare opportunities for the development of the artistic in make-ups and the comedians of the cheap vaudeville stage will be surpassed in their efforts. There will be masquerade balls in one or two local halls.

No order has been issued from the police department regarding the celebration of Hallowe'en but it is tacitly understood that no violations of the law will be tolerated. Chief of Police C. W. Albright stated this morning that his men will patrol the entire town tomorrow night to prevent any malicious mischief. Such mischief as changing signs, stealing property, setting off fireworks, etc., will be severely punished. It is not thought there will be many infringements of the law, the tendency being more towards a general good time on the streets without the objectionable and unnecessary rowdyism.

## ENTERTAINS AT HALLOWE'EN PARTY

Miss Mildred Lowstutter entertained several of her friends at her home on Fallowfield avenue Saturday night at a Hallowe'en party. Interesting diversions were provided and enjoyed, consisting of Hallowe'en games. There were 20 present. A delicious supper was served.

## Charleroi Baby Captures Prize.

Birdie Sample of Charleroi, daughter of Mr. and Mrs. P. E. Sample, of McKean avenue, who is visiting her sister, Mrs. R. T. Wheeler of Fairmont, W. Va., was awarded one of the handsome prizes, given to the prettiest baby in the four-year old class, at the baby show held there by the Hospital Fund of that city. The prize was a handsome knit hood.

## Masquerade Dance.

Will be held Hallowe'en night, Tuesday, October 31, by the Imperial Athletic Club at Concordia Hall, corner Ninth street and Crest avenue. Everybody invited. Prizes will be given. Prices: Ladies, masked 25 cents; unmasked 10 cents. Gentlemen, masked 50 cents, unmasked 35 cents. Music by Jenkins orchestra. 75-c2

## AFFECTS THIS SECTION.

In view of the interest this community has in the prosecution of the United States Steel corporation by the United States Government, which is seeking to dissolve this gigantic concern, the following from the Connellsville Courier as to the local effects, should the trust be dissolved, is timely. The Courier says:

"The Supreme Court recently decreed the dissolution of the Oil and Tobacco trusts, but it did not even suggest that the constituent companies should also retire from business. The court sliced these combinations down to their original parts, but it did not consider it just or necessary or wise to make mince meat of the whole mess.

"The Attorney General's move against the Steel Corporation seems to have for its aim the grinding of this corporation into atoms. In this connection, it is pertinent to inquire, in case subsidiary companies like the H. C. Frick Company for example shall have to be dissolved, whether the coke works with their equipment will be divided up among the stockholders.

"Many of the employees of this company are stockholders of the Steel Corporation. When the Attorney General's meat ax has finished its fine work, we presume that some of the Connellsville region stockholders will have to take a pit wagon or two or a lorry or a mine pump or a dinky locomotive; and if the theory of the Attorney General and his Band of Trust Busters is correct, these necessary portions of a coke plant equip-

ment cannot again be assembled for the purpose of operation, because that would be a combination in restraint of some other fellow's trade.

"Reduced to its logical conclusions, the demand of the Attorney General would put the whole industrial system of the Steel Corporation out of business. It is alleged that the Steel Corporation "defied competition." This is not true but it seems certain that the success of the Attorney General's contentions concerning it would stifle business.

"But we do not believe that the Steel Corporation will be disintegrated, or that in any event its subsidiary corporations will be dissolved. It is the victim of political shuttlecock, and this fact is much more unfortunate for the country than it is for the Steel Corporation."

## NO POLITICAL ISSUE

In a communication published elsewhere, contributed and signed by James Gelder, the writer condemns the police for the arrest of some flagrant offenders against law and order who were given their just deserts for offenses that no decent community will tolerate. Under the charge of disorderly conduct, the real offense of which was insulting women on the street and using profane and offensive language in public the first offender was arrested. The other arrests were made because sympathizers interfered and violated the law. The subsequent action of the officials and the previous careers of the offenders is sufficient justification of the police in the eyes of law abiding citizens as well as of the law itself.

If the police are to be condemned for using summary action to protect women from insult on the public streets, and to prevent open riot and mob rule, then we might as well give over all attempts for organized government and protection to life and property and relapse into a state of anarchy. Mr. Gelder seeks to make a political issue of the voters and in effect calls upon the voters to cast their ballots at the coming municipal election against those who support the police and administer the law in this as well as in similar actions. There is no political issue at all involved. It is a straight-out issue of whether or not Charleroi is to bow to the reign of hoodlumism, and permit our wives, sisters and daughters to continue to be insulted upon the public streets or to invoke and uphold the law that guarantees protection.

It is well enough to talk about reform, uplift and moral suasion, but when the mob spirit is imminent by those who have been repeated offenders against the law, summary action on the part of the officials is the only alternative.

## PICKED UP IN PASSING

Two Slavish girls, who were employed as domestics, and who spoke remarkably good English, exchanged experiences in the lobby of a local theatre the other evening, while awaiting the conclusion of the show in order to get a seat for the next one. One was employed in Charleroi and the other in Monongahela, but the frank manner in which they told of the traits of various families in which they had been employed was entertaining to the listeners.

"Where you living now?" asked the Monongahela girl of the one in Charleroi.

"At Mrs. Doe's." (This was not the name given, however.)

"How is she?"

"Somethin' fierce. Don't think I'll stay long. Work too hard. All them girls wear wash clothes. I have to wash twice week. The wash ain't dirty, but it's big, an' I'm never through washin' an' ironin'."

"Is she particular?"

"You bet. Tells me to put the clothes through three waters. I do it—nit."

"Say, you ought to get in with Mrs. Blank. They use a girl nice there. Treat her like one of the family. I'd never left, only I wanted to be near to my sister in Monongahela so I could help her some."

"Yes, I know about that place. I'm watchin' it. So's a lot of other girls."

At this juncture the show ended and the conversation came to a close.

A visitor to Charleroi this week was an elderly man who came from Genesee, New York, to visit a son who is located in this community. The remarkable feature about his visit is that he drove all the way with a horse and buggy—half way across the western part of New York State, and nearly across the entire State of Pennsylvania.

"Of all bad roads I encountered on the entire drive," said the visitor, "the worst was between Belle Vernon and Charleroi."

In coming from Pittsburgh he took the route by way of West Newton to Belle Vernon, and thence by Speers to Charleroi.

# AUTO EXPERT IN PERIL

The great automobile industry which is the marvel of the twentieth century has been developed at a terrific cost of human energy.

The well-known automobile engineer of New York City, C. M. Archer had a very trying experience which he relates in a letter as follows: "As a result of overwork in my profession my health became broken down a year ago. This grew worse and I became very weak and nervous. Then I began to take Vinol and now I am strong and well again. "Vinol has certainly worked a miracle in my case. It is the greatest body builder I have ever seen and

nothing equals it. You may publish this for the benefits of every man and woman who wants to know the way back to health and strength."

There are many overworked men and women in this town who ought to take Vinol right now and recover their health and strength while they can. Do not delay another day. We guarantee Vinol to do you good and give back your money if it does not. Piper Bros. Drugists, Charleroi, Pa.

## A FAIR OFFER

Your Money Back if You're not Satisfied

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in Charleroi only at our store. 12 tablets 25 cents; 80 tablets 50 cents. Sold only at our store—The Rexall Store. Carroll's Drug Store, 623 Followfield Avenue, Charleroi.

## CANNIBALS WHO CHEW GUM

Draw or Finds the Seris Kindly and Affectionate and Quite Without Deadly Weapons.

Though it seems rather a pity to shatter romantic illusions and myths in a world from which romance (of that kind, anyway) is fading rapidly, yet it must be said that there are only two old, useless rifles in the hands of the tribe, and at the time of our visit only two bows and a couple of quivers full of arrows, not one of which was headed. And now they haven't those, for we bought them for souvenirs.

Among themselves, at any rate, however they may have behaved to strangers in the past, the Seris were as kindly and even affectionate a lot of people as I have ever had the good fortune to encounter. Never did we see a mother or father slap a child. Never was anger displayed or irritation. They were continually sharing with each other the little gifts we made them. Really, you know, when you see a group of alleged cannibals sharing chewing-gum (the first they had ever tasted) from mouth to mouth and enjoying themselves hugely, respect for travelers' tales of blood and thunder goes down a peg or two.—Michael Williams in Outing.

## Lifting Fire Hose by Elevators.

The latest idea for raising water for fire-extinguishing purposes to the uppermost floors of tall buildings is to lift the hose by means of the passenger or freight elevators. A simple attachment is provided for affixing the hose to the floor of the elevator, the pipe being coiled up in the bottom of the shaft so as to be easily raised. In a recent demonstration at Memphis, Tenn., says Popular Mechanics, it was said that the water arrived at the sixth floor of a building practically as soon as the floor was reached by the elevator, and the fire chief of that city recommended the compulsory adoption of the device by all buildings provided with elevators. The hose is inserted in the attachment about two sections behind the discharge nozzle, these sections being coiled on the elevator floor.

## IT IS HUMAN; THAT'S IT

Why Critics All Praise "The Prodigal Judge"—The Best Novel of the Year

The Pittsburg Dispatch is to be congratulated on securing the right to publish "The Prodigal Judge," as a serial. It is one of the few novels that every one likes to read. "The Prodigal Judge" is the sort the men enjoy as well as the women. Here are just a few extracts from what some of the critics say about it. Read them and you will want to read the novel, too. They say, "It is one of the most fascinating human and original novels that an American author has turned out in many a long year."

"It is a companionable book."  
"It is a novel truly American."  
"It is a book of redemption."  
"One where justice takes its inevitable course."  
"A book where mercy opens the road to regeneration."

"A book rich with the ripest humor."

"A story of dramatic thrills, of stirring and laughable scenes," etc. Read this great story now that you have the opportunity. The opening chapters will be published in The Pittsburg Dispatch on Wednesday, November 1. Tell your newsdealer to get it for you, and tell your friends to read it. It is a great novel.

## For Nifty Dressers.

To the man with a small income economy is essential. By throwing away your old socks because the heels and toes are worn out? Cut off the legs, and (after washing of course) sew them to the tops of your new pair of socks. Do the same when the lower pair is worn out, and so on as long as possible. A man who becomes attached to his sockery may, by this simple process, in time become the owner of a handsome union suit, without any extra expense.

When you cut off your beard save your whiskers. Shoulders are to be wider, and human hair, especially when curly makes the best possible padding. Or keep friendly with your barber and get him to save his clippings for you.

Avoid aniline dyes when you wish to recolor your light spring suit for fall wear. Vegetable dyes are much softer and more delicate. Almost any of the leading brands of canned soups will give a rich, mellow tone to worsted fabrics. Tomato, mock turtle and gumbo will be the prevailing hues next season. Use hot water for cotton goods and milk for woolens. Use no salt.—A Haberdasher, in Leslie's.

## Children and Firearms Again.

Little Anna Quinn, fourteen years old, was instantly killed the other day at Lowell, Mass., by the explosion of a revolver held by her playmate, Thelma Borg, aged twelve years. The two children, with Sonia Borg, a sister of Thelma, and another play-fellow, were playing about the Borg home when they discovered the revolver. After all had looked at it, Anna playfully held it against the heart of Thelma Borg. "I'm going to kill you," she said, smilingly. The trigger was pulled, but the revolver failed to explode. Once more the weapon was examined by the children and then Thelma Borg took it and placed it close to the Quinn child's head. Playfully she exclaimed: "You killed me; now I'm going to kill you." She fired. This time the weapon exploded.

## How Perfume is Weighed.

It was the Italian physician Salvatori who devised a microbalance of such extreme delicacy that it clearly demonstrated the loss of weight of musk by volatilization. Thus the invisible perfume floating off in the air is indirectly weighed.

The essential part of the apparatus is a very thin thread of glass, fixed at one end and extended horizontally. The microscopic objects to be weighed are placed upon the glass thread near its free end and the amount of flexure produced is observed with a microscope magnifying 100 diameters.

A mote weighing one thousandth of a milligram is said perceptibly to bend the thread.—Buffalo Courier.

## Pony vs. Horse Intelligence.

I have been asked a great many times if ponies are really more intelligent than full-sized horses. They certainly appear to be. But the intelligence of any horse will develop under petting and human companionship, and there is no doubt that other horses, if given the same privileges that ponies enjoy and if their size admitted of their being handled and managed in the same way, would prove equally intelligent.—Outing

## England the Pioneer.

The manufacture of cotton seed products on a commercial scale had its beginning in England, and as late as 1870 that country, with an annual crush of 200,000 tons, was the leading cotton seed oil producing country in the world.

## The Only Way.

Hewitt—"I want him to stand back of what he says." Jewett—"Then you'd better get him to say it by telephone."

# LIVERY STABLE STOCK IN VENICE!

If a man of ordinary intelligence were approached by an affable stranger and urged to buy stock in a livery stable in Venice, he would in all likelihood feel insulted. He would have reason to be, for such an offer would be a reflection on his intelligence.

It is along lines like this that some business men advertise.

For instance: A clothier has a line of suits near the end of the season that he desires to close out. He advertises them at a sharp reduction. Compared with what he paid for them and what he sold them for at the opening of the season, they are a bargain. The public does not want the suits at that particular time at any price, and the clothier, not getting the results, makes a deduction that advertising doesn't pay, and ceases to advertise.

In the meantime the big department store in the nearest city is flooding the newspapers with cuts and descriptions of nifty ties, collars, marked down shirts that are good at any time, seasonable underwear at special prices that is needed to fill in between times.

The local dealer is disappointed because people won't buy stock in a livery stable in Venice; and loses the sale of other stocks that might be practicable.

The department store in the city gets the trade because it knows that the ordinary person has no use for something he does not need at that particular time.

The business man who never gets advertising to produce results are the Micawbers of trade—always waiting for something to turn up. The man who knows how to advertise, and tries to sell the people something they want, WHEN THEY WANT IT and not to unload what he doesn't want—turns something up.

## TALES OF THE TELEPHONE

Its Exploitation in England Seemed Impossible Until Queen Victoria Became Interested.

The United States has eight telephones for every hundred of population, while no other country has half as many. Following the establishment on a solid basis of the American telephone system work for European exploitation was early begun. The results were hardly encouraging.

Five-eighths of the British rights were purchased for \$500 by a Providence man, says the National Magazine. After working in London four months he could not find any one who would put a shilling in the telephone.

An English review said of it: "The telephone is little better than a toy. It amuses the English, but is inferior to the well established system of air tubes."

The victory was won at last by Kate Field, who sang "Kathleen Mavourneen" over the telephone to Queen Victoria. The queen was delighted, asked Bell if she might buy two telephones, and it was not long before all England was interested. An exchange with ten wires was opened in London, and in April, 1879, Theodore Vail sent an order to the factory in Boston in his terse, characteristic way: "Please make 100 hand telephones for export trade as early as possible."

Preserve for Salt Water Fish. Bermuda will soon have a salt water fishing preserve covering an area of about five square miles. It will be made by constructing a sill of concrete across the single narrow opening which unites Harrington sound with the ocean, and fixing a screen to prevent the exit of fish.

## Children Who Wear Denton's Sleeping Garments Keep Warm

Dr. Denton's sleeping garments are knit and have elastic seams. The feet are in the garment. Cuffs can be turned down and tied if desired. These garments give every movement and cannot cramp the limbs or body in any way. They thoroughly protect the children from the cold. Ordinary bed coverings are kicked loose and thrown off in spite of every precaution.

Prices are 50c, 75c, 85c according to size.

### As You Go.

"Clear up as you go" is an excellent text to work by—a parallel to "Never put off till tomorrow." &c.—and one that many a mother would do well to keep over before her and live up to. It is the putting-off habit that leads to accumulations, to hurry, and, consequently, to badly done work. If clothes need repairing, let them be repaired at once; if things are out of their proper places, put them back again, where they ought to be; before they are irretrievably lost.

**Exquisite Elegy Tribute to Friend.**  
The early death of Keats robbed Shelley of a dear friend, but led to the writing of the exquisite elegy "Adonais," and it is rather touching to recall that when Shelley was drowned a year and a half later, a copy of Keats' poems was found open in his coat pocket when his body was washed ashore.

**Bachelors and Hypocrites.**  
About the worst hypocrite in the world is an old bachelor who claims that he likes children.—Chicago Record-Herald.

### The Broken Heart.

"The party will recover from this check," said Mayor Craig of Covington, apropos of a temporary setback. "They say the party will be broken. I'd reply that it will be about as much broken as young Lansing's heart."

"A chorus girl who had refused young Lansing said to a friend: 'I have broken his heart, I fear.'"

"You have. You certainly have," the friend replied, "You've broken it right in half."

"In half? What do you mean?"

"I mean that he takes two girls out to supper every night now."

### Needed Encouragement.

The Young Doctor—"They tell me you are noted for encouraging your patients." The Successful Old Doctor—"Yes. Many of my wealthiest patients think they are sick when there is nothing the matter with them—and I always encourage them."

### Jerrold's Biting Wit.

Albert Smith once wrote an article in Blackwood signed "A. S." "Tut," said Jerrold, on reading the initials, "what a pity Smith will only tell about two-thirds of the truth."

## WASHINGTON MAN KILLED BY SHOT

**Girl Picks Up Gun From  
Floor and the Weapon  
is Discharged**

William Miller 17 years old, was shot in the head and killed by a small 22-calibre rifle, which was accidentally discharged in the hands of Miss Carrie Springfield, a colored waitress in the Ellis restaurant in Washington Sunday night. The girl brushed against a Flobert rifle standing behind the lunch counter and knocked it to the floor. The weapon "broke" by the fall and when she picked it up she tried to close the gun which was discharged. The bullet struck Miller in the head who was sitting on a stool at the counter and he fell to the floor dead.

## FOURTEEN-YEAR-OLD TAKEN IN CHARGE BY THE JUVENILE COURT

Herbert Pegg, aged about 14 years, was taken to Washington today to be placed in the juvenile court detention rooms to await being called before the court to answer to charges of theft. Herbert was charged with removing certain articles from the buggy of Earl Nelson in Charleroi a few weeks ago. He was taken before Justice of the Peace E. E. Pice this morning and Mrs. Arthur W. Day and Mrs. E. C. Niver, members of the local juvenile court committee made the commitment.

## BRINGS BIG CAR TO DEMONSTRATE

F. C. Kunkle, and a party of Pittsburghers made a trip to Charleroi Sunday with Stearns' demonstrating automobile and showed the car to a number of local enthusiasts. He also took occasion to renew his acquaintance with R. Dale Jolliffe of a local undertaking firm. Mr. Kunkle and Mr. Jolliffe served together in the Spanish-American war in the Fighting Tenth in the Philippines, and they exchanged a number of reminiscences. The Stearns Motor company placed Charles S. Van Voorhis in charge of an agency here.

### Special Feature.

## The Most Stylish Shoe Made

Smart, snug fitting shoes in all the new leathers and fabrics—every one with the wonderful Red Cross Comfort.

In all the newest leathers and fabrics the Red Cross Shoe has smarter lines and fits closer than any other shoe.

Until they saw the Red Cross Style Book or tried on the actual shoe so many women thought that the comfort of a Red Cross Shoe was due to soft leather, a low heel, clumsy lines and loose fit.

As a matter of fact, the comfort of the Red Cross Shoe is due to the way it fits the foot and follows its every movement as a glove moves with the hand.

**Red Cross Shoe**

Although of the regular thickness, the sole is perfectly supple. This is due the Special Red Cross Tanning Process which preserves all the natural life and elasticity of the leather—makes the sole bend with every movement of the foot.

It makes the Red Cross Shoe comfortable the first time you wear it. You won't have to go through the torture of "breaking it in."

Come in to-day and let us fit you in one of the new models.

## We Shall be Pleased to See You

**ABOUT** those fall shoes. Of course you read of shoe ads in the papers, and you get in a quandry as to where you will buy the shoes. We want all the patronage we can get. We would like it if we had a cinch on all the shoe selling in Charleroi. We certainly sell more shoes than any other store in town, and the only reason we do not sell them all is because all the people in Charleroi have not visited our. Call in and look at our line of store shoes for fall and winter.

## MONONGAHELA VALLEY INTERESTED IN TESTS

**Big Demonstration at  
Pittsburg Attracts  
Attention**

**PRESIDENT TAFT COMING**

**National Executive and Gov.  
J. K. Tener Among the  
Honor Guests**

Mining hosts are assembled at Pittsburg today to attend the first of a three days' celebration of two notable events in the history of Western Pennsylvania and the world. One will be a demonstration of the progress being made to safeguard life in mining and the other the first part of the observance of the hundredth anniversary of steamboat navigation on the Ohio river. Gov. John K. Tener and President William H. Taft will take an active part in the exercises. President Taft will be in Pittsburg on Tuesday.

To the Monongahela valley the mine demonstration holds chief interest and miners from all along this waterway will witness the experiment, conducted under the personal supervision of Dr. Joseph A. Holmes, Director of the National Bureau of Mines. The demonstration began this morning at 8:30 o'clock. Tests were made of explosives and explosions of fuel, etc., at the aresenal grounds. An address of welcome was made to the mining men by Walter L. Fisher, Secretary of the Interior. Congressman Marun B. Fox of Illinois, responding among other tests, a demonstration of a coal dust explosion, a gas and dust explosion with black powder and a gas and air explosion were made. This afternoon there was an experimental explosion at Bruceton. Tonight a reception will be tendered to Secretary of the Interior Walter L. Fisher and Dr. J. A. Holmes. Tomorrow morning with President Taft as an honor guest demonstrations will be given of explosions, rescues and first-aid-to-the-injured. Trophies will be presented by President Taft, Gov. Tener, Secretary of the Interior, Walter L. Fisher and Miss Mabel Boardman of the American National Red Cross Association will make addresses.

The program for the centennial celebration will open this afternoon with a meeting in the lecture hall of Carnegie Library when addresses will be made. Tonight there will be a reception for women guests at Hotel Schenley and among the honor guests will be Mrs. Alice Roosevelt Longworth. Tomorrow the replica of the steamboat New Orleans, the first steamboat to operate from Pittsburg to New Orleans, will be christened by Mrs. Longworth. A steamboat parade will be held following. Tomorrow night a Chamber of Commerce banquet will be held at the Hotel Schenley complimentary to President Taft.

Wednesday various meetings will be held and on Thursday the New Orleans will leave on its voyage to the gulf.

### Big Masquerade Ball.

A big masquerade ball will be held in Turner Hall, Corner of Second street and Donner avenue, Monessen, Hallowe'en night, October 31. Eight prizes will be given. Dancing from 8 to 2. Costumes can be had all day Tuesday at the hall. 79-12

## Want Line Laid Right

**Donora Citizens Insist That  
Trolley Company Pave  
Between Tracks**

Donora people are not going to allow the Pittsburg Railway company to build its tracks along the new road to Monongahela unless they construct a smooth paving surface between the tracks, if their earnest protestations can avail. The trolley car company wants, it is stated, to lay a track from Monongahela to Donora along the new road, but objects to paving between the tracks, giving as a reason that it wants to prevent vehicle traffic from passing over its tracks. It is probable that a committee of citizens will visit Washington to take up the matter with the county commissioners to involve their aid.

## DID YOUNG MEN GET JUSTICE? ASKS GELDER

**Matter of Arrest and Sentence of Local Disturb-  
ers is Taken Up**

To the Citizens of Charleroi:  
I feel it the duty of myself as a citizen of Charleroi and one that wants to see that justice is done to all to make a statement to you after the most disgraceful and brutal part that was ever seen on our streets last Wednesday evening, and by the so-called high-handed police who was the cause of all the excitement by the way they were trying to do their duty. The shooting done by our chief being uncalled for and the danger to lives by such an act. The way they went about in making the arrest of Kenneth Matson was a disgrace to our town. Here are three young men thrown into jail kept there for 28 hours then taken before Justice of the Peace E. E. Rice, handcuffed as though they were the most dangerous criminals in the state and sent to jail for 30 days without given one chance to put up a defense. Was justice given to these young men?

And such treatment and testimony given by our police who I think would say anything to send you to jail is enough to make criminals instead of trying to make men of them. Now, Mr. Voter, are these the kind of men you want? Will you get to thinking and open your eyes ready for November 7th? One that has had injustice done to and is ready at all times to do anything for the betterment of our town.

Respectfully,  
James Gelder.

## THE SPIANS UNABLE TO SECURE HOTEL ROOM AT MONESSEN

**Town With 15 Licensed Houses Without Accommodations for Members of Theatrical Company**

With 15 licensed hotels at Monessen, it is said that transients have a hard time in that town getting a night's lodging. Last week a big show struck the town, which exhibited at the opera house there, and it is stated that about 50 members of the troupe, after making a tour of the 15 hotels in vain for lodgings, had to skulk about and seek private rooms. The larger hotels were filled up with their ordinary guests and the more prominent members of the theatrical company, and the smaller houses it is said, either had not the facilities for the accommodation of guests or would not take them in. It is said that this will be made the basis of a hard night in Monessen to knock out some of the licenses at the next term of court. As these licenses are granted to the hotels, presumably to equip them to take care of the traveling public, which they fail to do, it is stated that the Monessen people are beginning to realize that many of them are maintained exclusively for the saloon privileges and that the hotel feature is a farce. Charleroi with only a thousand and less population has but seven licensed hotels which afford ample facilities to take care of the traveling public will be cited as an example, it is said, by the opponents of license at Monessen when they make their fight at the next license court.

## IS RECOVERING FROM POISONING

**Monongahela Man's Life is  
Saved After He Takes  
Laudanum**

Well on the way to recovery, 'Jimmie' Ray, who it is claimed took poison here Saturday afternoon, was removed to his home town by friends Sunday morning. Ray was found by the local police Saturday afternoon shortly after he had taken a bottle of laudanum. It required the services of several men Saturday afternoon and evening to keep him awake. It was the intention to send him to the hospital.

## ASKS DAMAGES FOR LOSS OF HER HUSBAND

**Mrs. Morrison Presents Claim  
of \$30,500 for a Former  
Woven Wire Worker**

Charging the Page Woven Wire Fence company with negligence, Mrs. Margaret Morrison of Monessen has filed suit in the Westmoreland county courts to recover damages of \$30,500 for the loss of her husband. He was killed according to her claim on December 21 or thereabouts, 1910.

In her statement Mrs. Morrison says that her husband was employed as a steel smelter in an open hearth department of the plant. Part of his duties were to operate four levers, controlling a flow of gas in the furnaces. To each of these levers was attached a cable supporting a weight of 800 pounds. By the breaking of a cable, she avers her husband was struck by the falling lever and hurled against a steel railing with such force that his skull was fractured, death resulting therefrom. She states she was left a widow with two children, aged five and two years.

Respectfully,  
James Gelder.

## ATTENDS SESSION OF OSTEOPATHS

**Local Member of Society Pre-  
sides at Meeting Held  
in Pittsburg**

Dr. C. C. Wright of Charleroi the president of the Western Pennsylvania Osteopathic society presided at a meeting held by the association at Pittsburg on Saturday night at the Fort Pitt hotel. Talks were made by Dr. Frank Hunter Smith of Indiana, Dr. Clara Morrow of Butler and Dr. C. W. Bumpus of East Liverpool. Dr. Bumpus spoke on "pneumonia" and in the course of his talk said that 85 or 90 per cent of cases of pneumonia treated by osteopathic physicians are either aborted or cured.

## FUNERAL OF GIRL VICTIM OF FIRE IS HELD TODAY

**Body of Little Elizabeth Mc-  
Guire Interred in the  
Local Cemetery**

The funeral of Elizabeth McGuire, the 5-year-old daughter of Mr. and Mrs. Michael McGuire, of 105 Luella avenue, who died Saturday morning at 9 o'clock from burns received the night previous was held this morning. Requiem high mass was celebrated at St. Jerome's Catholic church. Interment was in Calvary cemetery. Besides the parents, there are several brothers and sisters who survive.

## HALLOWE'EN OBSERVANCE ALONG THE USUAL LINES

**Enforcing  
Food Laws**

**California Man Fined for  
Selling Soft Drink Con-  
taining Saccharine**

John Jenkins, special agent of the Food and Drug commission, is going a lot towards having the pure food laws enforced by sellers along this valley and over the district of which he has charge. A day or so ago he had before Justice of the Peace Joseph Wheeler of Charleroi Nathan Avenner, of California, charged with violation of the pure food laws. It was claimed that Avenner sold a sort of non-alcoholic beverage called orange cider in which he used saccharine in place of sugar. He was fined \$25 and costs.

## CITIZEN THINKS INVESTIGATIONS SHOULD BE MADE

**Suggests that Council Make  
Movement Towards Hav-  
ing "Dens" Cleaned Out**

To the Editor of the Charleroi Mail:  
Sir—While the Mail is to be commended for various articles appearing in your paper lately concerning the disturbances on the street, enough stress and punishment cannot be placed on those directly to blame. I am well aware any town has no use for the "under world," and their vices, etc., but a rigid investigation is needed by council to know where the occupants of such places are, and how a majority of the boys and young men can wantonly stay out all night if there is not some place to harbor them.

Such are the cases where there are so many with no visible means of support. There is no excuse why every occupant should not be known to the police in a town of this size.

I have tried on many occasions to find where those places are but through fear or some other cause they are bound to immune secrecy, which makes it impossible to locate these "dens."

Now when this crusade is started on the defenseless I trust it will be continued until it reaches the proper source of destruction.

Let the council investigate, and they can easily learn who resides in every house in the town through the action of their municipal government.

Yours truly,

Citizen.

**Maskers to be Out in  
Full Force Tomorrow  
Night**

**ROWDYISM IS TABOO**

**Police Will be Watchful to  
Prevent Property From  
Being Destroyed**

There will be no organized Hallowe'en celebration here this year as there was during the two previous years, but indications are that young people will have a good time nevertheless. Celebrators will be watched by the police to see that in their exuberance of spirits they do not exceed the limit of tolerance. While there has been no arrangements made for a parade, it is not unlikely that a parade will be held.

Masquerade costumes will be in great demand. This one night of the year set apart from the rest for a time of enjoyment affords rare opportunities for the development of the artistic in make-ups and the comedians of the cheap vaudeville stage will be surpassed in their efforts. There will be masquerade balls in one or two local halls.

No order has been issued from the police department regarding the celebration of Hallowe'en but it is tacitly understood that no violations of the law will be tolerated. Chief of Police C. W. Albright stated this morning that his men will patrol the entire town tomorrow night to prevent any malicious mischief. Such mischief as changing signs, stealing steps, running away with wagons or removing sidewalk walks will not be allowed. It is not thought there will be many infringements of the law, the tendency being more towards a general good time on the streets without the objectionable and unnecessary rowdyism.

## ENTERTAINS AT HALLOWE'EN PARTY

Miss Mildred Lowstutter entertained several of her friends at her home on Fallowfield avenue Saturday night at a Hallowe'en party. Interesting diversions were provided and enjoyed consisting of Hallowe'en games. There were 20 present. A delicious supper was served.

### Charleroi Baby Captures Prize.

Birdie Sample of Charleroi, daughter of Mr. and Mrs. P. E. Sample, of McKean avenue, who is visiting her sister, Mrs. R. T. Wheeler of Fairmont, W. Va., was awarded one of the handsome prizes, given to the prettiest baby in the four-year old class, at the baby show held there by the Hospital Fund of that city. The prize was a handsome knit hood.

### Masquerade Dance.

Will be held Hallowe'en night, Tuesday, October 31, by the Imperial Athletic Club at Concordia Hall, corner Ninth street and Crest avenue. Everybody invited. Prizes will be given. Prices: Ladies, masked 25 cents; unmasked 10 cents. Gentlemen, masked 50 cents, unmasked 35 cents. Music by Jenkins orchestra. 75-07

## AFFECTS THIS SECTION.

In view of the interest this com-  
munity has in the prosecution of the  
United States Steel corporation by  
the United States Government, which  
is seeking to dissolve this gigantic  
concern, the following from the Con-  
necticut Courier as to the local ef-  
fects, should the trust be dissolved, is  
timely. The Courier says:

"The Supreme Court recently de-  
creed the dissolution of the Oil and  
Tobacco trusts, but it did not even  
suggest that the constituent com-  
panies should also retire from busi-  
ness. The court sliced these combina-  
tions down to their original parts,  
but it did not consider it just or nec-  
essary or wise to make mince meat of  
the whole mess.

"The Attorney General's move  
against the Steel Corporation seems  
to have for its aim the grinding of  
this corporation into atoms. In this  
connection, it is pertinent to inquire,  
in case subsidiary companies like the  
J. A. C. Frick Company for example  
shall have to be dissolved, whether  
the coke works with their equipment  
will be divided up among the stock-  
holders.

"Many of the employees of this com-  
pany are stockholders of the Steel  
Corporation. When the Attorney Gen-  
eral's meat ax has finished its fine  
work, we presume that some of the  
Connellsville region stockholders will  
be left with a pig wagon or two or  
a Larry or a mine pump or a dinky  
locomotive; and if the theory of the  
Attorney General and his Band of  
Trust Busters is correct, these neces-  
sary portions of a coke plant equip-

ment cannot again be assembled for  
the purpose of operation, because that  
would be a combination in restraint  
of some other fellow's trade.

"Reduced to its logical conclusions,  
the demand of the Attorney General  
would put the whole industrial sys-  
tem of the Steel Corporation out of  
business. It is alleged that the  
Steel Corporation "defied competi-  
tion." This is not true but it seems  
certain that the success of the At-  
torney General's contentions concern-  
ing it would stifle business.

"But we do not believe that the  
Steel Corporation will be disintegrated,  
or that in any event its subsidiary  
corporations will be dissolved. It is  
the victim of political shuffling, and  
this fact is much more unfortunate  
for the country than it is for the  
Steel Corporation."

## NO POLITICAL ISSUE

In a communication published else-  
where, contributed and signed by  
James Gelder, the writer con-  
demns the police for the arrest of  
some flagrant offenders against law  
and order who were given their just  
deserts for offenses that no decent  
community will tolerate. Under the  
charge of disorderly conduct, the real  
offense of which was insulting women  
on the street and using profane and  
offensive language in public the first  
offender was arrested. The other ar-  
rests were made because sympathizers  
interfered and violated the law. The sub-  
sequent action of the officials and the  
previous careers of the offenders is  
sufficient justification of the police in  
the eyes of law abiding citizens as  
well as of the law itself.

If the police are to be condemned  
for using summary action to protect  
women from insult on the public  
streets, and to prevent open riot and  
mob rule, then we might as well give  
over all attempts for organized gov-  
ernment and protection to life and  
property and relapse into a state of  
anarchy. Mr. Gelder seeks to make a  
political issue of the affair and in-  
effect calls upon the voters to cast  
their ballots at the coming municipal  
election against those who support  
the police and administer the law in  
this as well as in similar actions.  
There is no political issue at all in-  
volved. It is a straight-out issue of  
whether or not Charleroi is to bow to  
the reign of hoodlumism, and permit  
our wives, sisters and daughters to  
continue to be insulted upon the pub-  
lic streets or to invoke and uphold the  
law that guarantees protection.

It is well enough to talk about re-  
form, uplift and moral suasion, but  
when the mob spirit is imminent by  
those who have been repeated offend-  
ers against the law, summary action  
on the part of the officials is the only  
alternative.

## PICKED UP IN PASSING

Two Slavish girls, who were em-  
ployed as domestics, and who spoke  
remarkably good English, exchanged  
experiences in the lobby of a local  
theatre the other evening, while  
awaiting the conclusion of the show  
in order to get a seat for the next one.  
One was employed in Charleroi and  
the other in Monongahela, but the  
frank manner in which they told of  
the traits of various families in which  
they had been employed was enter-  
taining to the listeners.

"Where you living now?" asked the  
Monongahela girl of the one in Char-  
leroi.

"At Mrs. Doe's." (This was not  
the name given, however.)

"How is she?"

"Somethin' fierce. Don't think I'll  
stay long. Work too hard. All them  
girls wear wash clothes. I have to  
wash twice week. The wash ain't  
dirty, but it's big, an' I'm never  
through washin' an' ironin'."

"Is she particular?"

"You bet. Tells me to put the  
clothes through three waters. I do it  
—nit."

"Say, you ought to get in with Mrs.  
Blank. They use a girl nice there.  
Treat her like one of the family. I'd  
never left, only I wanted to be near  
to my sister in Monongahela so I  
could help her some."

"Yes, I know about that place. I'm  
watchin' it. So's a lot of other girls."

At this juncture the show ended  
and the conversation came to a close.

A visitor to Charleroi this week  
was an elderly man who came from  
Genesee, New York, to visit a son  
who is located in this community. The  
remarkable feature about his visit is  
that he drove all the way with a  
horse and buggy—half way across  
the western part of New York State,  
and nearly across the entire State of  
Pennsylvania.

"Of all bad roads I encountered on  
the entire drive," said the visitor, "the  
worst was between Belle Vernon and  
Charleroi."

In coming from Pittsburgh he took  
the route by way of West Newton to  
Belle Vernon, and thence by Speers to  
Charleroi.

## AUTO EXPERT IN PERIL

The great automobile industry  
which is the marvel of the twentieth  
century has been developed at a ter-  
rific cost of human energy.

The well-known automobile engi-  
neer of New York City, C. M.  
Atcher had a very trying experience  
which he relates in a letter as fol-  
lows: "As a result of overwork in  
my profession my health became  
broken down a year ago. This grew  
worse and I became very weak and  
nervous. Then I began to take Vinol  
and now I am strong and well again.

"Vinol has certainly worked a mir-  
acle in my case. It is the greatest

## Pathetic Cries of Quadrupeds.

none approach more closely that of  
the human voice than those of seals

## A FAIR OFFER

Your Money Back if You're not Satisfied

We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, yet gentle and pleasant in action and particularly agreeable in every way. They do not cause diarrhoea, nausea, flatulence, griping, or any inconvenience whatever. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in Charleroi only at our store. 12 tablets 25 cents; 80 tablets 50 cents. Sold only at our store—The Rexall Store, Carroll's Drug Store, 628 Followfield Avenue, Charleroi.

## CANNIBALS WHO CHEW GUM

Traver Finds the Seris Kindly and Affectionate and Quite Without Deadly Weapons.

Though it seems rather a pity to shatter romantic illusions and myths in a world from which romance (of that kind, anyway) is dying rapidly, yet it must be said that there are only two old, useless rifles in the hands of the tribe, and at the time of our visit only two bows and a couple of quivers full of arrows, not one of which was headed. And now they haven't those, for we bought them for souvenirs.

Among themselves, at any rate, however they may have behaved to strangers in the past, the Seris were as kindly and even affectionate a lot of people as I have ever had the good fortune to encounter. Never did we see a mother or father slap a child. Never was anger displayed or irritation. They were continually sharing with each other the little gifts we made them. Really, you know, when you see a group of alleged cannibals sharing chewing-gum (the first they had ever tasted) from mouth to mouth and enjoying themselves hugely, respect for travelers' tales of blood and thunder goes down a peg or two.—Michael Williams in Outing.

## Lifting Fire Hose by Elevators

The latest idea for raising water for fire-extinguishing purposes to the uppermost floors of tall buildings is to lift the hose by means of the passenger or freight elevators. A simple attachment is provided for affixing the hose to the floor of the elevator, the pipe being coiled up in the bottom of the shaft so as to be easily raised.

In a recent demonstration at Memphis, Tenn., says Popular Mechanics, it was said that the water arrived at the sixth floor of a building practically as soon as the floor was reached by the elevator, and the fire chief of that city recommended the compulsory adoption of the device by all buildings provided with elevators. The hose is inserted in the attachment about two sections behind the discharge nozzle, these sections being coiled on the elevator floor.

## IT IS HUMAN; THAT'S IT

Why Critics All Praise "The Prodigal Judge"—The Best Novel of the Year

The Pittsburgh Dispatch is to be congratulated on securing the right to publish "The Prodigal Judge," as a serial. It is one of the few novels that every one likes to read. "The Prodigal Judge" is the sort the men enjoy as well as the women. Here are just a few extracts from what some of the critics say about it. Read them and you will want to read the novel, too. They say, "It is one of the most fascinating human and original novels that an American author has turned out in many a long year."

"It is a companionable book."  
"It is a novel truly American."  
"It is a book of redemption."  
"One where justice takes its inevitable course."  
"A book where mercy opens the road to regeneration."  
"A book rich with the ripest humor."

"A story of dramatic thrills, of stirring and laughable scenes," etc.

Read this great story now that you have the opportunity. The opening chapters will be published in The Pittsburgh Dispatch on Wednesday, November 1. Tell your newsdealer to get it for you, and tell your friends to read it. It is a great novel.

## For Nifty Dressers.

To the man with a small income economy is essential. By throwing away your old socks because the heels and toes are worn out? Cut off the legs, and (after washing of course) sew them to the tops of your new pair of socks. Do the same when the lower pair is worn out, and so on as long as possible. A man who becomes attached to his old socks may, by this simple process, in time become the owner of a handsome union suit, without any extra expense.

When you cut off your beard save your whiskers. Shoulders are to be wider, and human hair, especially when curly, makes the best possible padding. Or keep friendly with your barber and get him to save his clippings for you.

Avoid aniline dyes when you wish to recolor your light spring suit for fall wear. Vegetable dyes are much softer and more delicate. Almost any of the leading brands of canned soups will give a rich, mellow tone to worsted fabrics. Tomato, mock turtle and gumbo will be the prevailing hues next season. Use hot water for cotton goods and milk for woolens. Use no salt.—"A Haberdasher," in Leslie's.

## Children and Firearms Again.

Little Anna Quinn, fourteen years old, was instantly killed the other day at Lowell, Mass., by the explosion of a revolver held by her playmate, Thelma Borg, aged twelve years. The two children, with Sonia Borg, a sister of Thelma, and another play-fellow, were playing about the Borg home when they discovered the revolver. After all had looked at it, Anna playfully held it against the heart of Thelma Borg. "I'm going to kill you," she said, smilingly. The trigger was pulled, but the revolver failed to explode. Once more the weapon was examined by the children and then Thelma Borg took it and placed it close to the Quinn child's head. Playfully she exclaimed: "You killed me; now I'm going to kill you." She fired. This time the weapon exploded.

## How Perfume is Weighed.

It was the Italian physician Salvini who devised a microbalance of such exact delicacy that it clearly demonstrated the loss of weight of musk by volatilization. Thus the invisible perfume floating off in the air is indirectly weighed.

The essential part of the apparatus is a very thin thread of glass, fixed at one end and extended horizontally. The microscopic objects to be weighed are placed upon the glass thread near its free end and the amount of flexure produced is observed with a microscope magnifying 100 diameters.

A note weighing one thousandth of a milligram is said perceptibly to bend the thread.—Buffalo Courier.

## Pony vs. Horse Intelligence.

I have been asked a great many times if ponies are really more intelligent than full-sized horses. They certainly appear to be. But the intelligence of any horse will develop under petting and human companionship, and there is no doubt that other horses, if given the same privileges that ponies enjoy and if their size admitted of their being handled and managed in the same way, would prove equally intelligent.—Outing.

## England the Pioneer.

The manufacture of cotton seed products on a commercial scale had its beginning in England, and as late as 1870 that country, with an annual crush of 200,000 tons, was the leading cotton seed oil producing country in the world.

## The Only Way.

Hewitt—"I want him to stand back of what he says." Jewett—"Then you'd better get him to say it by telephone."

# LIVERY STABLE STOCK IN VENICE!

If a man of ordinary intelligence were approached by an affable stranger and urged to buy stock in a livery stable in Venice, he would in all likelihood feel insulted. He would have reason to be, for such an offer would be a reflection on his intelligence.

It is along lines like this that some business men advertise.

For instance: A clothier has a line of suits near the end of the season that he desires to close out. He advertises them at a sharp reduction. Compared with what he paid for them and what he sold them for at the opening of the season, they are a bargain. The public does not want the suits at that particular time at any price, and the clothier, not getting the results, makes a deduction that advertising doesn't pay, and ceases to advertise.

In the meantime the big department store in the nearest city is flooding the newspapers with cuts and descriptions of nifty ties, collars, marked down shirts that are good at any time, seasonable underwear at special prices that is needed to fill in between times.

The local dealer is disappointed because people won't buy stock in a livery stable in Venice; and loses the sale of other stocks that might be practicable.

The department store in the city gets the trade because it knows that the ordinary person has no use for something he does not need at that particular time.

The business man who never gets advertising to produce results are the Micawbers of trade—always waiting for something to turn up. The man who knows how to advertise, and tries to sell the people something they want, WHEN THEY WANT IT and not to unload what he doesn't want—turns something up.

## TALES OF THE TELEPHONE

Its Exploitation in England Seemed Impossible Until Queen Victoria Became Interested.

The United States has eight telephones for every hundred of population, while no other country has half as many. Following the establishment on a solid basis of the American telephone system work for European exploitation was early begun. The results were hardly encouraging.

Five-eighths of the British rights were purchased for \$500 by a Providence man, says the National Magazine. After working in London four months he could not find any one who would put a shilling in the telephone.

An English review said of it: "The telephone is little better than a toy. It amuses the English, but is inferior to the well established system of air tubes."

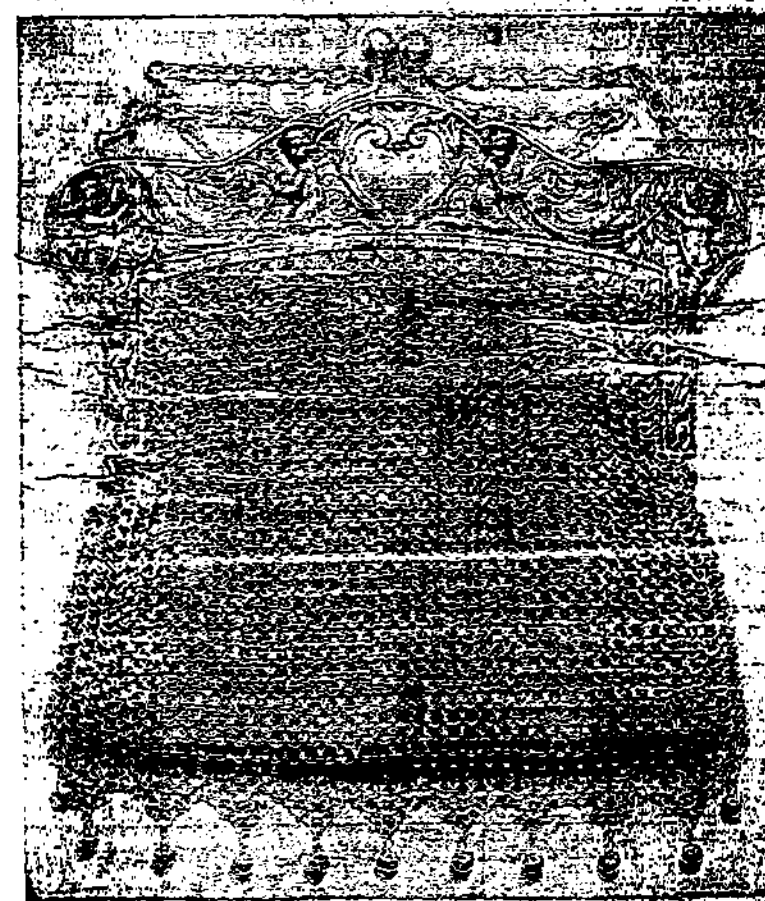

The victory was won at last by Kate Field, who sang "Kathleen Mavourneen" over the telephone to Queen Victoria. The queen was delighted, asked Bell if she might buy two telephones, and it was not long before all England was interested. An exchange with ten wires was opened in London, and in April, 1879, Theodore Vail sent an order to the factory in Boston in his terse, characteristic way: "Please make 100 hand telephones for export trade as early as possible."

Preserve for Salt Water Fish. Bermuda will soon have a salt water fishing preserve covering an area of about five square miles. It will be made by constructing a sill of concrete across the single narrow opening which unites Harrington sound with the ocean, and fixing a screen to prevent the exit of fish.

### As You Go.

"Clear up as you go" is an excellent text to work by—a parallel to "Never put off till tomorrow, &c.—and one that many a mother would do well to keep over before her and live up to. It is the putting-off habit that leads to accumulations, to hurry, and, consequently, to badly done work. If clothes need repairing, let them be repaired at once; if things are out of their proper places, put them back again, where they ought to be; before they are irretrievably lost.

### Exquisite Elegy Tribute to Friend.

The early death of Keats robbed Shelley of a dear friend, but led to the writing of the exquisite elegy "Adonais," and it is rather touching to recall that when Shelley was drowned a year and a half later, a copy of Keats' poems was found open in his coat pocket when his body was washed ashore.

### Bachelors and Hypocrisy.

About the worst hypocrite in the world is an old bachelor who claims that he likes children.—Chicago Record-Herald.

### The Broken Heart.

"The party will recover from this check," said Mayor Craig of Covington, apropos of a temporary setback. "They say the party will be broken. I'd reply that it will be about as much broken as young Lansing's heart."

"A chorus girl who had refused young Lansing said to a friend: 'I have broken his heart, I fear.'"

"You have. You certainly have," the friend replied, "You've broken it right in half."

"In half? What do you mean?" "I mean that he takes two girls out to supper every night now."

### Needed Encouragement.

The Young Doctor—"They tell me you are noted for encouraging your patients." The Successful Old Doctor—"Yes. Many of my wealthiest patients think they are sick when there is nothing the matter with them—and I always encourage them."

### Jerrold's Biting Wit.

Albert Smith once wrote an article in Blackwood signed "A. S." "Tut," said Jerrold, on reading the initials, "what a pity Smith will only tell about two-thirds of the truth."

## WASHINGTON MAN KILLED BY SHOT

Girl Picks Up Gun From Floor and the Weapon is Discharged

William Miller 17 years old, was shot in the head and killed by a small 22-calibre rifle, which was accidentally discharged in the hands of Miss Carrie Springfield, a colored waitress in the Ellis restaurant in Washington Sunday night. The girl brushed against a Fiobert rifle standing behind the lunch counter and knocked it to the floor. The weapon "broke" by the fall and when she picked it up she tried to close the gun which was discharged. The bullet struck Miller in the head who was sitting on a stool at the counter and he fell to the floor dead.

## FOURTEEN-YEAR-OLD TAKEN IN CHARGE BY THE JUVENILE COURT

Herbert Pegg, aged about 14 years, was taken to Washington today to be placed in the juvenile court detention rooms to await being called before the court to answer to charges of theft. Herbert was charged with removing certain articles from the buggy of Earl Nelson in Charleroi a few weeks ago. He was taken before Justice of the Peace E. E. Rice this morning and Mrs. Arthur W. Day and Mrs. E. C. Niver, members of the local juvenile court committee made the commitment.

## BRINGS BIG CAR TO DEMONSTRATE

F. C. Kunkle, and a party of Pittsburghers made a trip to Charleroi Sunday with Stearn's demonstrating automobile and showed the car to a number of local enthusiasts. He also took occasion to renew his acquaintance with R. Dale Joliffe of a local undertaking firm. Mr. Kunkle and Mr. Joliffe served together in the Spanish-American war in the Fighting Tenth in the Philippines, and they exchanged a number of reminiscences. The Stearns Motor company placed Charles S. Van Voorhis in charge of an agency here.

### Special Feature.

At the Star Theatre on Thursday, November 2, will be the pictures of the Austin Flood showing the effects of the awful disaster.

## The Most Stylish Shoe Made

Smart, snug fitting shoes in all the new leathers and fabrics—every one with the wonderful Red Cross Comfort.

In all the newest leathers and fabrics the Red Cross Shoe has smarter lines and fits closer than any other shoe.

Until they saw the Red Cross Style Book or tried on the actual shoe so many women thought that the comfort of a Red Cross Shoe was due to soft leather, a low heel, clumsy lines and loose fit.

As a matter of fact, the comfort of the Red Cross Shoe is due to the way it fits the foot and follows its every movement as a glove moves with the hand.

# Red Cross Shoe

Although of the regular thickness, the sole is perfectly supple. This is due the Special Red Cross Tanning Process which preserves all the natural life and elasticity of the leather—makes the sole bend with every movement of the foot.

It makes the Red Cross Shoe comfortable the first time you wear it. You won't have to go through the torture of "breaking it in."

Come in to-day and let us fit you in one of the new models.

## LOCAL TEAM WINS IN HARD FOOTBALL GAME

The Charleroi football team on Saturday afternoon defeated the Monongahela Owls on the local grounds by the score of 15 to 0. Jacobs made the three touchdowns. The game was a good one, the Charleroi team recently organized, playing together well. It will play the Colonials from Monessen here next Saturday.

### Valuable Jamaican Woods.

The most valuable of the Jamaican woods are the yaca, the bully tree, ironwood, bahoe, juniper, cedar, mahogany, lignum vitae, ebony, fiddlewood, yoke, prickly yellow, broad leaf, soapwood, cashew and calabash. Hardwood is used principally for railway sleepers, telegraph poles and fence posts, cedars used chiefly for native shingles and furniture, and other woods are used in building houses in the highlands. Unfortunately the streams are not large enough to log them to the coast, but there is no reason why portable engines and sawmills should not be utilized so as to turn these woods into the market.

### To Repair a Map.

A good preparation to use in replacing the pieces which have fallen off the cotton of the map may be made as follows: Beat up a paste of rye flour and add to it good glue in proportion of one-quarter the weight of the flour. Mix well; spread lightly on the cotton, and carefully affix the torn pieces.

## We Shall be Pleased to See You

ABOUT those fall shoes. Of course you read of shoe ads in the papers, and you get in a quandry as to where you will buy the shoes. We want all the patronage we can get. We would like it if we had a cinch on all the shoe selling in Charleroi. We certainly sell more shoes than any other store in town, and the only reason we do not sell them all is because all the people in Charleroi have not visited our. Call in and look at our line of store shoes for fall and winter.
